

## MULTI-AGENCY MCA FORUMS

The sessions will be 1 hour long and consist of a short 15-minute presentation around a number of identified themes. The primary aim of the sessions is to provide a forum where practitioners can discuss situations that they face on the ground with implementation of the Act. As such the presentations are to stimulate discussion, not limited to the theme of each session. The aim of the sessions is that they will be practitioner led with a focus on practical ways to improve MCA skills and competencies.

**Participants from all backgrounds are actively encouraged to attend so that we can understand how our differing perspectives may impact upon implementation.**
